MADE HERE – Call for Artists

Have an idea that could grow into something bigger when others help bring it to life?

HKYAF, in partnership with Taikoo Place and Pacific Place Offices, is inviting artists and creative practitioners to develop exciting original artworks in collaboration with the workplace communities.

We are looking for bold, original ideas that bring office tenants, including working parents, their children, and the wider community to co-create ambitious artworks. Selected artists will guide participants and lead the creative vision. While artists may create key elements themselves, community contributions must be integral to the final work.

With working parents and their children as a key participant group, the project builds on PROJECT AFTER 6, our tenant engagement programme designed to uncover and showcase hidden talents within the office community, offering participants opportunities to explore their creativity and connect through art.

Completed works will be presented in a public showcase at ArtisTree, Taikoo Place's multi-purpose arts and cultural hub, bringing the community's collective creativity to a wider audience in October 2027.

WHAT WE'RE LOOKING FOR

- Established and emerging artists, artist groups and collectives who are Hong Kong permanent residents aged 18 or above.
- Proposals across 2D, 3D and interdisciplinary visual arts practices, including sculpture, installation, art and technology, traditional and contemporary crafts, cross-cultural work and other creative forms. Performing arts and live elements may also be considered if they can contribute. meaningfully to a multi-week exhibition.
- Artist to provide the central concept, artistic direction and key structure of the work, while creating meaningful opportunities for community participation, whether through intensive workshop series, one-off workshops, or other creative approaches.
- Proposals that consider creative feasibility, safety and the quality of the final outcome.

Your proposal does not need to be fully developed. We are looking for a strong creative idea with room to grow and evolve through collaboration. Shortlisted artists may be invited to visit the project spaces and further develop their proposal with HKYAF before final selection.

PROJECT PERIOD

- The overall programme will run from February to October 2027.

- Artists will develop their concept with HKYAF, followed by a programme of public participation and artwork creation across approximately 4 to 6 months in the lead-up to the exhibition.
- Collaborative activities will take place in designated spaces at Taikoo Place.
- The completed work will be showcased for approximately five weeks across September and October 2027.

WHAT WE OFFER

- We expect to commission one or more artists or artist teams, depending on the scale and nature of the proposals.
- Selected artists will receive an artist fee covering concept development, workshop facilitation and creation of the commissioned artwork, as well as a separate production budget for materials, fabrication and installation.
- HKYAF will support selected artists with exhibition coordination, installation and logistics, and participant recruitment and management, allowing artists to focus on developing and delivering the creative work.

TO APPLY

Please submit:

- the completed application form before the deadline
- a short description of your proposed artwork, with images, sketches or visual references
- how participants would be involved, including the type and level of participation you propose – for example, an intensive workshop series, one-off workshops or other approaches
- your CV and portfolio / website

Application deadline: 6pm, 8 Jan 2027
